In use (period): Yes, since 2009

Series' differences: No changes

VALUES AND FORMAT

0 -12 Number of months

FLAGS

- | | |
|----|------------------------------------|
| 1 | Collected via survey/interview |
| 2 | Collected from administrative data |
| 3 | Imputed |
| 4 | Not possible to establish a source |
| -1 | Missing |

DESCRIPTION

This variable can be derived from the calendar of activity.

For the selected respondent countries, or when this is not possible, part of the information can be derived (selected respondent 16+) and part of it can be asked through interview (other household members aged 16+).

The status is self-defined, and the same definitions apply as for the variable 'self-defined current economic status' (PL032).

The target variable captures the person's own perception of their main activity. It differs from the ILO concept to the extent that people's own perception of their main status differs from the strict definitions used in the ILO definitions. If more than one of the other situations applies in the same month, the respondent should select one on the basis of self-assessment. The criterion of most time spent may be useful where applicable.

If more than one type of activity occurs in the same month, priority should be given to economic activity ("main activity: work") over non-economic activity and over inactivity.

If more than one of the other situations apply in the same month, the respondent should select one on the basis of self-assessment. The criterion of most time spent may be useful where applicable.

The category 'fulfilling domestic tasks' includes all activities needed to run a private household including the raising of children.

Note: The total number of months recorded for the respondent in PL073+ PL074+ PL075+ PL076+ PL080+ PL085+ PL086+ PL087+ PL089+ PL090 cannot exceed 12.
