

The category 'not applicable' covers persons not in employment and persons in employment who are not employees should be marked as Flag '-2'.

The operational criteria for defining informal (without written agreement/contract) jobs of employees should be determined according to national circumstances and data availability.

Seasonal workers are counted as having a fixed-term contract, as well as persons having a contract for a probationary period.

For temporary employment agency workers, the categorisation depends on the type of contract with the employment agency. They are counted as having a permanent job only if there is a work contract of unlimited duration with the employment agency.

If the respondent has several jobs, the main job is the one where the respondent usually works the most hours.

Suggested question:

*'What type of contract do you have for your main job?'*
